

RESOLUTION NO. 2024-003

A RESOLUTION REPLACING RESOLUTION NO. 2023-001,
AND ADOPTING A REVISED FEE SCHEDULE

WHEREAS, the City Council, through ordinance, has adopted regulations requiring certain actions and services; and,

WHEREAS, these various ordinances set forth that fees shall be set by resolution; and,

WHEREAS, the cost of providing these various services consistent with applicable codes, regulations, and policies periodically increase and decrease, or certain services or practices are discontinued and fees are no longer needed; and,

WHEREAS, it is the intent of the City of Arlington to charge appropriate fees and charges that are consistent with the services provided and to cover the public cost of providing these various services so that the public is not subsidizing individual benefits derived therefrom; and,

WHEREAS, the City has reviewed the fees in relationship to estimated staff time to complete various tasks, and believes some fees should be updated; and

WHEREAS, the City Council held a public hearing concerning the establishment of the fees;

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF ARLINGTON AS FOLLOWS:

The following rates, fees, and charges for various services provided, actions performed, or items sold by the city and/or its contract service providers, and fines levied against code violators, are hereby adopted:

Section 1. Fees and Charges – General

- 1.1 **Fees.** Fees are intended to cover the normal, recurring costs associated with providing a given service. Fees are non-refundable.
- 1.2 **Prices.** In some instances, the City provides certain goods and merchandise for sale. Prices for these goods may be included in this resolution.
- 1.3 **Payment Due.** Fees are due at the time the action is requested (e.g., at time of application) or occurs (e.g., prior to a specific action). An applicant may pay all fees of a multi-phased project in advance; however, doing so does not vest applicable fees due. Fees due are those in effect at the time the specific action or phase of an action is requested or occurs.
- 1.4 **Waivers.** Upon petition by the applicant, the City Council may waive any of the fees, or portions thereof, for any non-profit organization or government agency.

Section 12: Fees for Duplication and Redaction of Public Records.

- 12.1 Fees for various services and actions for duplication and redaction of public records shall be consistent with the provisions of RCW 42.56.120 and listed in Table 12: Fees for Public Records Services.
- 12.2 The City of Arlington finds that calculating the actual costs of scanning per page in order to fulfill a public records request would be unduly burdensome for the following reasons:
 - (a) The City employs over 120 employees. Because all City employees contribute to the production of public records requests and all employees earn different salaries or rate of pay, the public records officer would have to be privy to salaries of all employees in order to calculate the invoice;
 - (b) Employees supplying scanned records to the public records officer would be required to track time spent, thereby creating a burden for those employees without workstations as well as additional work not assigned in many employees’ job descriptions and or union contracts;
 - (c) The City’s public records officer would be required to maintain a record of all employees who contribute to each part of a public record request and potentially charge different amounts for multiple scanned pages;

- (d) The City uses more than seven document scanning machines with different costs and lease agreement fees which change from time to time. The cost of supplies for the City’s various scanning machines is subject to change based on current market rates. Calculating the portion of the machines and supplies used toward scanning public records would require knowledge of the cost of supplies and an in-depth analysis of timing and application multiplied by each contributing employee’s hourly rate of pay; and
- (e) The response time to a public records request may be delayed in order to calculate scanning costs and create an invoice with different rates of scanning charges.
